

Post-Doc Position Offered Santiago, Chile

The Millennium Institute **Complex Engineering Systems** is offering positions for post doctoral research work for one or two years starting on April or July 2008.

The Institute gathers top scholars from Engineering, Economics and Operations Research, creating synergy within areas such as Transport, Management, Mining, Retail, Location, Forestry, Environment, Energy, and others. The Institute's headquarter is at the Facultad de Ciencias Físicas y Matemáticas, Universidad de Chile, in Santiago, www.ing.uchile.cl. Members of the Institute and areas of research can be found in www.sistemasdeingenieria.cl

Post doc work should aim at increasing synergy through research, seminars and general Institute's activities. A monthly salary of Ch\$ 1.6 million (approx. US\$ 3,000) is offered, plus funds for academic expenses. Applicants should send CV, intended area(s) of research, starting month, and statement of purpose to Rodrigo Quijada, r.quijada@sistemasdeingenieria.cl before March 10th, 2008. At least two recommendation letters should be included.
